

SMOKE OUTLOOK

Central Sierras – Dome Fire

10/03 - 10/04

ARA: Jill Webster, jill.webster@usda.gov

Issued: 07:49 PDT 10/03/26

Interagency Wildland Fire Air Quality Response Program

FIRE

The **Dome** fire is currently estimated at 6159 acres and is 40% contained. Fire activity for the **Dome** fire is expected to remain active.

SMOKE

Hot, dry weather is making the fire more active, so we can expect continued smoke over the weekend. Air quality in Yosemite Valley is in the UNHEALTHY range this morning, but it should improve to MODERATE in the afternoon. Expect heavy smoke in the Yosemite Valley again overnight. El Portal will have mostly MODERATE air quality today. Wawona will be mostly UNHEALTHY for SENSITIVE GROUPS with periods of UNHEALTHY again overnight. Hodgdon Meadow and Tuolumne Meadows will have mostly MODERATE smoke impacts and hazy skies. Mariposa will experience MODERATE smoke impacts in the morning that clears to GOOD when the winds shift around noon. With active fire, expect continued smoke impacts to the Yosemite region through the weekend.

Yosemite Valley UNHEALTHY to VERY UNHEALTHY in the morning improving to MODERATE by late afternoon, heavy smoke returns overnight.

Wawona UNHEALTHY smoke impacts this morning improving to MODERATE in the evening. Heavy smoke again overnight.

El Portal MODERATE air quality with possible periods of heavy smoke in the morning and evening.

Hodgdon Meadow USG this morning improving to GOOD later this evening. Smoke will again settle in the area over night.

Tuolumne Meadows MODERATE air quality with haze and possible periods smoke.

Mariposa MODERATE smoke impacts through the morning expected to clear by noon. Afternoon haze and then overnight smoke possible.

HEALTH STATEMENT

Smoke can be harmful to your health. Check with your doctor if there are any health concerns and monitor your local air quality conditions using the Fire and Smoke Map.
